CASE STUDY

BORDERFIELDS

The Borderfields story began in Northumberland in 2005, when local farmers came together to create the production of a range of high quality, tasty products including their cold pressed rapeseed oils. In 2009, the production facility was moved to Nottinghamshire where the infrastructure to support the growing brand and sector was developed.

OUR SOLUTION

Due to wanting to produce a high quality rapeseed oil, Borderfields needed both a stylish looking bottle, but also the practical functionality for their product. Finding the most suited bottle for Borderfields led us to looking at our Marasca range because of the different sizes available as well as the overall aesthetics of the bottle. Borderfields felt the 250ml and 500ml Marasca bottles allowed them to present their product as intended.

RESULTS

The end result is a stylish, high-end packaging which attracts customers due to not only the delicious product inside, but also the luxury, premium bottle which it comes in.
